

Process for Accessing WWW for Web Authors

Step 1: On the Internet go to remote.unco.edu

Step 2: Login with your first.last name for the username

Ex. UNCO1\ Joe.Smith

Next enter the password

If you do not have a first.last name account click on the following link and fill out the form.
WWW Club and Org

Step 3: For the Realm, select UNCO Privileged

Welcome to the University of Northern Colorado's
Secure Access SSL VPN

Username

Password

Realm

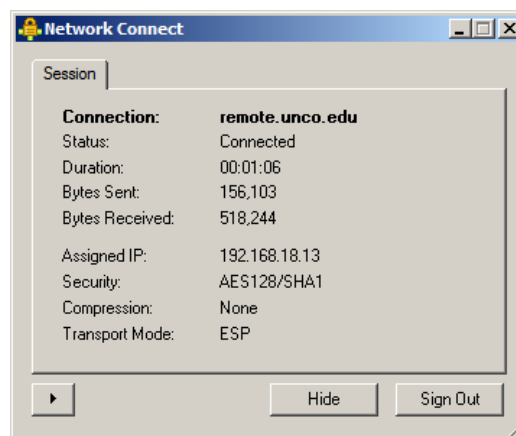

UNC's computer infrastructure systems may be monitored and constitutes consent to this monitoring may be used by enforcement agencies.

UNCO Privileged

Step 4: Once logged into SSL VPN, locate the Network Connect button at the bottom of the screen,

Step 5: After pressing the 'start' button, the Network Connect will launch, this will provide you with an assigned IP address for the University:

Step 6: You will now be able to access their FTP application for their WWW account, you will just need to stay logged in to VPN while posting on your web page.
